# 1 High-Level Scope

AI TaskMaster helps students manage their schedules and assignments with AI-driven automated scheduling and reminders.

## 2 High-Level Release Plan

- **Phase 1:** Calendar integration, AI scheduling, basic analytics.
- **Phase 2:** Dynamic rescheduling, group project tracking, meeting management.
- **Phase 3:** Personalized AI recommendations, multi-platform integration.

## 3 Product Consumers

- **Students:** University, college, and high school students.

## 4 Methods to Gather Feedback

- User surveys and feedback forms.
- Beta testing and AI usage analytics.
- Community discussions and stakeholder consultations.

## 5 Acceptance Criteria

The product is fully developed, tested, and verified for functionality. It is market-ready and approved for deployment.
